Introduction to Business Communication Connie Zimmerman 1999

Business Communication Mary Ellen Guffey 1996 Business Communication: Process and Product introduces a unique teaching/learning package that solves a major problem for instructors and students today. It provides the atmosphere of an exciting real-life business environment for business communication -- without sacrificing sound pedagogy. This means that students experience the enrichment of real people and real business situations while at the same time learning a hands-on process that they can carry with them to apply long after they leave the classroom...Business Communication: Process and Product takes students inside some of the country's best-run and most respected organizations, such as Liz Claiborne, Ben & Jerry's, American Airlines, Bank of America, and Walt Disney Imagineering. More importantly, though, it balances this exposure with a well-developed and consistently applied process approach to communication. Students need more than real business settings in which to frame their learning. They need a process that outlines specific steps to follow in solving future communication problems, a tangible strategy they can apply in their careers. In addition to a process, we provide ample products of that process.

Business Communication Marty Brounstein 2010-05-03 In order to succeed in today's competitive environment, it's imperative that students learn how to speak and write effectively for the business world. Presented in clear, everyday language, Business Communication, Canadian Edition takes the basic concepts that every business professional must know and conveys them in an accessible, easy to understand format. Students will also learn strategies and tools, for successfully applying their communication skills to achieve their goals. To meet the needs of a diverse student population, Business Communication, Canadian Edition focuses on the fundamentals, identifies core competencies and skills, and promotes independent learning. The book is organized using a four-step learning process called the CASE Learning System (Content, Analysis, Synthesis, Evaluation). Based on Bloom's Taxonomy of Learning, CASE presents key business communication topics in easy-to-follow chapters. As a result, students not only achieve academic mastery of business communication topics, but they master real-world business communication skills.

Strategic Financial and Investor Communication Ian Westbrook 2014-04-03 In today's aggressive marketplace, listed companies can no longer rely on their numbers to do the talking. If companies can't communicate their achievements and strategy, mounting research evidence suggests, they will be overlooked, their cost of capital will increase and stock price will suffer. In Strategic Financial and Investor Communication: the stock price story Ian Westbrook, principal of Australia's leading independent financial communications firm, argues just this: stock price is more a story than a number. Moreover, the book will teach you how to tell your own story by guiding you through the fast-paced world of financial corporate communication with a professional's pragmatism as well as academic rigour. Whether you're a student or a professional of PR, investor relations or corporate communications, this much-needed guide will teach you how to tell a compelling story about your company that the stockbroker, fund manager and corporate media cannot ignore.

Communication Essentials for Financial Planners John E. Grable 2017-01-30 Exploring the Human Element of Financial Planning Communication Essentials for Financial Planners tackles the counseling side of practice to help financial planners build more productive client relationships. CFP Board's third book and first in the Financial Planning Series, Communication Essentials will help you learn how to relate to clients on a more fundamental level, and go beyond "hearing" their words to really listen and ultimately respond to what they're saying. Expert coverage of body language, active listening, linguistic signals, and more, all based upon academic theory. There is also an accompanied set of videos that showcase both good and bad communication and counseling within a financial planning context. By merging written and experiential learning supplemented by practice assignments, this book provides an ideal resource for any client-facing financial professional as well as any student on their pathway to CFP® certification. Counseling is a central part of a financial planner's practice, and attention to interpersonal communication goes a long way toward progressing in the field; this guide provides practical instruction on the proven techniques that make a good financial planner great. Build client relationships based on honesty and trust Learn to read body language and the words not spoken Master the art of active listening to help your clients feel heard Tailor your communications to suit the individual client's needs The modern financial planning practice is more than just mathematics and statistical analysis—at its heart, it is based on trust, communication, and commitment. While interpersonal skills have always been a critical ingredient for success, only recently has this aspect been given the weight it deserves with its incorporation into the certification process. Communication Essentials for Financial Planners provides gold-standard guidance for certification and beyond.
