Mass Housing Miles Glendinning 2021-03-25 This major work provides the first comprehensive history of one of modernism's most defining and controversial architectural legacies: the 20th-century drive to provide 'homes for the people'. Vast programmes of mass housing – high-rise, low-rise, state-funded, and built in the modernist style – became a truly global phenomenon, leaving a legacy which has suffered waves of disillusionment in the West but which is now seeing a dramatic, 21st-century renaissance in the booming, crowded cities of East Asia. Providing a global approach to the history of Modernist mass-housing production, this authoritative study combines architectural history with the broader social, political, cultural aspects of mass housing – particularly the 'mass' politics of power and state-building throughout the 20th century. Exploring the relationship between built form, ideology, and political intervention, it shows how mass housing not only reflected the transnational ideals of the Modernist project, but also became a central legitimizing pillar of nation-states worldwide. In a compelling narrative which likens the spread of mass housing to a 'Hundred Years War' of successive campaigns and retreats, it traces the history around the globe from Europe via the USA, Soviet Union and a network of international outposts, to its ultimate, optimistic resurgence in China and the East – where it asks: Are we facing a new dawn for mass housing, or another 'great housing failure' in the making?

The London-Budapest Game Catherine Eva Schandl 2007-08 'The London-Budapest Game' is the true sequel to 'Sword of the Turul, ' with a unique glimpse into the British underground in World War II Hungary - and its aftermath. From 1991 to 2001, a Swedish-Russian joint Commission investigating the fate of Swedish diplomat Raoul Wallenberg discovered that 3 Hungarian numbered prisoners secretly held in Vladimir prison, Soviet Union had been connected to his case. One was Karoly Schandl, a young lawyer in Budapest who lived near the Swedish Embassy. This is the continuation of his shocking true story, supported by historical documents and excerpts from his private writings. Karoly's anti- Nazi resistance group was led by his childhood friend, Gabor Haraszty, a.k.a. British agent ALBERT. The group had links to MI9, ISLD (MI6), SOE, Colonel Howie, the Dutch and Polish Underground, the Tito partisans, and a group of famous Jewish parachutists from Palestine, with whom they had planned to collaborate in Hungary. It was a dangerous game, and only a few would survive ..

Cases in Public Policy and Administration Jay M. Shafritz 2011 Writing the perfect complement to their bestseller, Introducing Public Administration, Shafritz and Borick highlight the great drama inherent in public policy -- and the ingenuity of its makers and

administrators -- in this new casebook that brings thrilling, true life adventures in public administration to life in an engaging, witty style. Drawing on a unique assortment of literary, historic, and modern examples, *Cases in Public Policy and Administration* exposes students to public administration in practice by telling the tales of: How Thurgood Marshall led the legal fight for civil rights and made it possible for Barack Obama to become president How the ideas of an academic economist and a famous novelist led to the recession that started in 2008 How Al Gore really deserves just a little bit of credit for inventing the Internet How the decision was made by President Harry Truman to drop the first atomic bomb on Japan in order to end World War II How the current American welfare state was inspired by a German chancellor How a Nazi war criminal inadvertently provided the world with a lesson in bureaucratic ethics How Napoleon Bonaparte encouraged the job of chief of staff to escape from the military and live in contemporary civilian offices How an obscure state department bureaucrat wrote the policy of containment that allowed the United States to win the Cold War with the Soviet Union How Dwight D. Eisenhower was started on the road to the presidency by a mentor he found in the Panamanian rain forest How Florence Nightingale gathered statistics during the Crimean War that helped lead to contemporary program evaluation.

Kennan and the Cold War David Felix 2017-07-05 With his policy of containment, US diplomat George F. Kennan (1904-2005) devised a way to resist the Soviet Union's attempt to conquer the world for Communism. That way was to go to the brink of war to prevent war. His idea was first expressed in his famous Long Telegram from Moscow on February 22, 1946. It took genius to see a wartime ally as a dangerous adversary, and to convince the American leadership to act upon it. Back in the United States, the young diplomat first acted as deputy commandant in the National War College. He then operated as director of the State Department's Policy Planning Staff to restore Europe from wartime destruction. By 1950 Kennan began to reverse his thinking, believing that the military component of American policy was going too far. While his old colleagues continued to develop US power, given point by the atomic bomb, Kennan withdrew from government and began a new career as a public intellectual campaigning for a more peaceable policy in his eighteen books, and articles and talks. The breakdown of the Soviet economy in the 1980s showed that Kennan was right the second time as well. Always sympathetic to the Russian people and culture, which the later Soviet leaders appreciated, Kennan was able to welcome the new non-Communist Russia into a more peaceable relationship with the democracies that ended the Cold War. His life and works have become a national treasure.

American Government Scott F. Abernathy 2020-12-10 "The main strength of this book is that it presents a 'human' side to American Government that challenges students to think critically while still presenting the 'teaching' side with objectives, self-tests, and chapter reviews." —Kathleen Barrett, University of West Georgia In the Third Edition of *American Government: Stories of a Nation*, author Scott F. Abernathy tunes in to the voices of all Americans, showing how our diverse ideas shape the way we participate and behave, the laws we live by, and the challenges we face. From the Constitutional Convention to the 2020 presidential election, each chapter features rich, personal

narratives that illustrate how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. It focuses on real people, the actions they take, the struggles they face, and how their choices influence outcomes. The key concepts are memorable because they are tied to real politics, where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Participation is at the heart of this groundbreaking new text, with ample background on how we participate and why. Not only will all students see themselves reflected in the pages, but they will come to understand that they, too, are strategic players in American politics, with voices that matter. China Among Unequals Brantly Womack 2010 *China Among Unequals* presents asymmetry theory, a new paradigm for the study of international relations, derived from China's relationships with its neighbors and the world. The first collection of its kind, it brings together key writings on the theory and its applications to China's basic foreign policy, particularly towards the United States and the rest of Asia. Starting with an exploration of the general theory of asymmetry, with particular attention given to such topics as human rights, soft power, regionalism, and asymmetric wars, the book then moves on to the fundamentals of China's external relations, looking at the complexities created by its scale and broad range of neighbors. Traditional imperial relationships are analyzed, as well as China's more recent emphasis on multipolarity. The third section deals with US-China ties - China's most important relationship, and the only one in which it is in the more vulnerable position. The final section treats in detail the relationships between China and its Asian neighbors, including Southeast Asia and the complicated multilateral situations of Korea and Taiwan.

Civilization in the West Mark A. Kishlansky 2008 *Civilization in the West* blends social and political history with an exceptional map and image program to engage students and bring history to life. The authors tell a compelling story of Western Civilization that is enhanced by an image-based approach. "The Visual Record" chapter openers draw students in by using illustrations that underscore a dominant theme of the chapter. New "Image Discovery" features guide students to interrogate images, understand their contexts, and unpack their multiple meanings. The dramatic, changing contours of the West are explored through an exceptional map program, through Map Discovery

features, and through Geographical Tours of Europe.

The Main Enemy Milton Bearden 2003-05-06 A landmark collaboration between a thirty-year veteran of the CIA and a Pulitzer Prize-winning journalist, *The Main Enemy* is the dramatic inside story of the CIA-KGB spy wars, told through the actions of the men who fought them. Based on hundreds of interviews with operatives from both sides, *The Main Enemy* puts us inside the heads of CIA officers as they dodge surveillance and walk into violent ambushes in Moscow. This is the story of the generation of spies who came of age in the shadow of the Cuban missile crisis and rose through the ranks to run the CIA and KGB in the last days of the Cold War. The clandestine operations they masterminded took them from the sewers of Moscow to the back streets of Baghdad, from Cairo and Havana to Prague and Berlin, but the action centers on Washington, starting in the infamous "Year of the Spy"—when, one by one, the CIA's agents in Moscow began to be killed, up through to the very last man. Behind the scenes with the CIA's covert operations in Afghanistan, Milt Bearden led America to victory in the secret war against the Soviets, and for the first time he reveals here what he did and whom America backed, and why. Bearden was called back to Washington after the Soviets withdrew from Afghanistan and was made chief of the Soviet/East European Division—just in time to witness the fall of the Berlin Wall, the revolutions that swept across Eastern Europe, and the implosion of the Soviet Union. Laced with startling revelations—about fail-safe top-secret back channels between the CIA and KGB, double and triple agents, covert operations in Berlin and Prague, and the fateful autumn of 1989—*The Main Enemy* is history at its action-packed best.

Torn from the Inside Out Sara Niles 2014-03-03 Domestic Violence Narrative Memoir During a cold, unseasonal, February thunderstorm in 1987 Sara Niles was forced to flee for her life from a violent and abusive husband, with five small children in tow. Thomas Niles was an obsessed, homicidal psychopath, intent of killing Sara, and his own children, rather than let them go. The story of Sara Niles is more than one woman's story, it is the untold story of thousands of victims of domestic violence who did not survive. From the author: "In the process of my evolution, I became a victim of domestic war, an emotional casualty for a major portion of my life, entwined, entrapped and emotionally involved, until I learned how to become free. Freedom has never been easily gained and has often come at high cost throughout history, but one thing I will always know is freedom is worth every fight, and all pain" "In every life there is a timeless and unforgettable minute or day that will be forever etched into our mind's memory. I have unforgettable memories that are so vivid that I see them in Technicolor, and I hear them with surround sound. Long after I am dead, I believe, I will remember. Two of those memories were the days of my escape to freedom...twice" Celebrate the power of the human spirit under fire: *Torn From the Inside Out* by Sara Niles Excerpt from chapter one: "Thunder rattled the window-panes two stories high, and lightning split the sky, it was as if the whole world was in turmoil that night. My nerves were keyed up as tight as piano strings, and in a sudden moment of stillness and silence, it felt as though my heartbeat was amplified ten times over. He was over a hundred pounds greater than I, and nearly a foot taller than I, and I knew he could move his muscled body into unbelievable sprints. Rain started falling in torrents as the storm raged outside. I was not afraid of the storms of nature; it was the storm inside this night that I knew I might not survive" February 13th, 1987, the night of Sara Niles' disappeared with her five small

Cold War Warriors Ian Pearson 2021-09-01 Cold War Warriors tells the little-known story of the operations by the Royal Australian Air Force's P-3 Orions during the latter years of the Cold War. The aircraft's largely low-profile missions, usually flown far from their base, were often shrouded by confidentiality. Now, access to declassified documents has allowed this story to be told. From the lead-up to their delivery in 1968, to the end of the Cold War in 1991; from the intrigues associated with the procurement of the aircraft and subsequent upgrades, to perilous moments experienced by the aircraft and their crews while conducting operations; and from triumphs to tragedies; Cold War Warriors documents the P-3's service in the RAAF in the context of the unfolding domestic and international events that shaped the aircraft's evolving missions. As well as being a story of the RAAF Orions and their growing capabilities, Cold War Warriors is also the story of the crews who flew the aircraft. Using their words, Cold War Warriors faithfully describes a number of incidents, both on the ground, and in the air, to provide a sense of the enormous breadth of service the P-3 Orion has provided to the Royal Australian Air Force, to Australia and to our allies.

A Quiet American Andy Marino 2000-11-13 The story of Varian Fry, called the "real Rick" of Casablanca, is perhaps one of the most unknown, yet extraordinary sagas of World War II. This penetrating biography follows Varian Fry through his adult life--from his beginnings in the 1930s as a Harvard graduate and political journalist to his arrival in Marseille in 1940 where he managed to spirit away thousands of Europe's cultural elite by falsifying passports, creating new identities, and always resorting to subterfuge. The list of those saved includes: Hannah Arendt, Andre Breton, Franz Werfel and his wife Alma Mahler, Heinrich Mann, Marc Chagall, Jacques Lipchitz, Andre Masson, and Max Ernst among others. A Quiet American is an effort to extensively examine the life of a genuine American hero whose political and cultural influence is still largely

unacknowledged.

Council of War U. S. Military 2017-05-05 Council of War: A History of the Joint Chiefs of Staff, 1942--1991 follows in the tradition of volumes previously prepared by the joint History Office dealing with JCS involvement in national policy, the Korean War, and the Vietnam War. Adopting a broader view than earlier volumes, it surveys the JCS role and contributions from the early days of World War II through the end of the Cold War. Written from a combination of primary and secondary sources, it is a fresh work of scholarship, looking at the problems of this era and their military implications. The main prism is that of the joint Chiefs of Staff, but in laying out the JCS perspective, it deals also with the wider impact of key decisions and the ensuing policies. The narrative traces the role and influence of the Joint Chiefs of Staff from their creation in 1942 through the end of the Cold War in 1991. It is, first and foremost, a history of events and their impact on national policy. It is also a history of the Joint Chiefs of Staff themselves and their evolving organization, a reflection in many ways of the problems they faced and how they elected to address them. Over the years, the Joint History Office has produced and published numerous detailed monographs on JCS participation in national security policy. There has never been, however, a single-volume narrative summary of the JCS role. This book, written from a combination of primary and secondary sources, seeks to fill that void. Desert Dreams. the Quest for Arab Integration from the Arab Revolt to the Gulf Cooperation Council Justin Dargin 2012-02 DIVS - ISL, 3 (International Studies Library, 27) This book discusses the history of Arab integration attempts from the late Ottoman period to the creation of the Gulf Cooperation Council (GCC). Although there is significant scholarship on the history of pan-Arab nationalism and the drive for disparate Arab nations to integrate, there is preciously little literature that seeks to understand the development of closer integration in the Gulf in the context of the long history amongst Arabs of the awareness that a common cultural and social nation exists that should politically and economically collaborate. This book reassesses the history of Arab integration, and argues convincingly, that while the more politically charged "unionist" attempts of Arab political integration may have failed, instead what we can anticipate, based on the illustration of the GCC, is deeper and closer economic, financial, political and social coordination amongst various Arab countries. The Star and the Scepter Emmanuel Navon 2020-11 The first all-encompassing book on Israel's foreign policy and the diplomatic history of the Jewish people, The Star and the Scepter retraces and explains the interactions of Jews with other nations from the ancient kingdoms of Israel to modernity. Starting with the Hebrew Bible, Emmanuel Navon argues that one cannot grasp Israel's interactions with the world without understanding how Judaism's founding document has shaped the Jewish psyche. He sheds light on the people of Israel's foreign policy through the ages: the ancient kingdoms of Israel, Jewish diasporas in Europe from the Middle Ages to the emancipation, the emerging nineteenth-century Zionist movement, and Zionist diplomacy following World War I and surrounding World War II. Navon elucidates Israel's foreign policy from the birth of the state in 1948 to our days: the dilemmas and choices at the beginning of the Cold War; Israel's attempts to establish periphery alliances; the Arab-Israeli conflict; Israel's relations with Europe, the United States, Russia, Asia, Africa, Latin America, the United Nations, and the Jewish diasporas; and how twenty-first-century energy geopolitics is transforming Israel's foreign relations today. Navon's analysis is rooted in two central ideas, represented by the Star of David (faith) and the scepter (political power). First, he contends that the interactions of Jews

with the world have always been best served by combining faith with pragmatism. Second, Navon shows how the state of Israel owes its diplomatic achievements to national assertiveness and hard power—not only military strength but economic prowess and technological innovation. Demonstrating that diplomacy is a balancing act between ideals and realpolitik, *The Star and the Scepter* draws aspirational and pragmatic lessons from Israel's exceptional diplomatic history.
