Pleasure and Leisure in the Middle Ages and Early Modern Age Albrecht

Classen 2019-08-05 Jan Huizinga and Roger Caillois have already taught us to realize how important games and play have been for pre-modern civilization. Recent research has begun to acknowledge the fundamental importance of these aspects in cultural, religious, philosophical, and literary terms. This volume expands on the traditional approach still very much focused on the materiality of game (toys, cards, dice, falcons, dolls, etc.) and acknowledges that game constituted also a form of coming to terms with human existence in an unstable and volatile world determined by universal randomness and fortune. Whether considering blessings or horse fighting, falconry or card games, playing with dice or dolls, we can gain a much deeper understanding of medieval and early modern society when we consider how people pursued pleasure and how they structured their leisure time. The contributions examine a wide gamut of approaches to pleasure, considering health issues, eroticism, tournaments, playing music, reading and listening, drinking alcohol, gambling and throwing dice. This large issue was also relevant, of course, in non-Christian societies, and constitutes a critical concern both for the past and the present because we are all homines ludentes.

A Game for Hooligans Huw Richards 2011-09-30 Rugby union has undergone immense change in the past two decades - introducing a World Cup, accepting professionalism and creating a global market in players - yet no authoritative English-language general history of the game has been published in that time. Until now. A Game for Hooligans brings the game's colourful story up to date to include the 2007 World Cup. It covers all of the great matches, teams and players but also explores the social, political and economic changes that have affected the course of rugby's development. It is an international history, covering not only Britain and France but also the great rugby powers of the southern hemisphere and other successful

rugby nations, including Argentina, Fiji and Japan. Contained within are the answers to many intriguing questions concerning the game, such as why 1895 is the most important date in both rugby-union and rugby-league history and how New Zealand became so good and have remained so good for so long. There is also a wealth of anecdotes, including allegations of devil-worship at a Welsh rugby club and an account of the game's contribution to the Cuban Revolution. This is a must-read for any fan of the oval ball.

- NAFTA & Neocolonialism Laurence French 2004 This work is a study of the impacts of the North American Free Trade Agreement (NAFTA). By focusing on the issue of justice in the contexts of globalization and neo-colonialism, the book contributes to a broader discussion of the significance of NAFTA. Authors Laurence French and Magdaleno ManzanOrez emphasize cultural and ethnic issues in the relations of NAFTA partners and enrich treatment of the topic by bringing to bear sociology, political science, justice studies, psychology, and educational theory. The authors relate classical sociological theory to contemporary issues of social and criminal justice.

Experiencing Cities Mark Hutter 2015-12-22 This extraordinary text for
 undergraduate urban students is a reflection of Mark Hutter's academic
 interests in urban sociology and his life-long passion for experiencing city
 life. His deep academic roots in the Chicago School of Sociology help inform
 and appreciate the variety of urban structures and processes and their
 effect on the everyday lives of people living in cities. This text, however,
 extends the Chicago School perspective by combining its traditions with a
 social psychological perspective derived from symbolic interaction and also
 with a macro-level examination of social organization, social change,
 stratification and power in the urban context, informed by political
 economy. This entirely new, 3rd Edition has a global outlook on city life,
 and a visual presentation unmatched among books in this genre.
