Aunt Dimity and the Buried Treasure Nancy Atherton 2016-05-24 Nancy Atherton's twenty-first cozy mystery in the beloved, Nationally Bestselling Aunt Dimity series. While exploring the attic in her cottage near the small English village of Finch, Lori Shepherd makes an extraordinary discovery: a gleaming gold and garnet bracelet that had once belonged to Aunt Dimity. When Lori shows the garnet bracelet to Aunt Dimity, it awakens poignant memories of a doomed romance in Aunt Dimity's youth in London after the War. Regretfully, Aunt Dimity asks Lori to do what she could: return the bracelet to her unsuccessful suitor—setting Lori off on an adventure through London through history—to put a piece of Aunt Dimity's past to rest. In the meantime, a new family has moved to Finch. The villagers are thrilled because their new neighbors are avid metal detectorists. Metal detectors soon become all the rage in Finch and the villagers unearth a lot of rubbish (and it's quite embarrassing) before one of them stumbles upon a trinket that could hold the key to the location of Aunt Dimity's bracelet. Is the bracelet a priceless and protected national treasure? Was Aunt Dimity's lovesick suitor a common thief? If so, how will Lori break the news to Aunt Dimity? And what will she do with the bracelet? As Lori searches for answers, she discovers an unexpected connection between the buried treasure in the village and the treasure buried in Aunt Dimity's heart. Watch for Nancy Atherton's latest, Aunt Dimity and the King's Ransom, coming in July 2018 from Viking.

The Stonehenge Solution George Terence Meaden 1992 Its contents are as curious as its price: subtitled 'Language of the Megaliths' this is a book for believers in the Earth Mother, with corn dollies, megalithic art and sexual symbolism in abundance. A sensible discussion of the origins of corn circles is followed by a complacent explanation of Neolithic and Bronze Age religion in Britain. For the fringe archaeology bookshelves. Aubrey Burl .

The Rescue of the Bride. Cyrus 2014-07-18 Nestled between the Cascade Mountains and the mighty Pacific is the final remnant of the human population—a community spared from the spread of a deadly global pandemic. Within this relocation town, Sardis struggles with the loss of his mentor who was not only his mentor but his closest friend. But Sardis is about to learn that his mentor's secret: a secret so impactful, it will change the course of his future and the future of all mankind. Now, as God calls him to the front lines of the greatest battle in history, will he be able to harness the power that is stirring in his soul and lead a group of unlikely friends on this impossible journey? Will he succumb to the darkness and fear that forever clutches his frail human heart? The Rescue of the Bride delves deep into the essence of the human spirit, dividing joy and fear, light and darkness, using God's promises to unlock the truth hidden within the heart of every man.

Walking into the Void Arpad Szokolczai 2017-10-17 The book starts by discussing the significance of walking for the experience of being human, including a comparative study of the language and cultures of walking. It then reviews in detail, relying on archaeology, two turning points of human history: the emergence of cave art sanctuaries and a new cultural practice of long-distance 'pilgrimages', implying a descent into such caves, thus literally the 'void'; and the abandonment of walking culture through settlement at the end of the Ice Age, around the time when the visitation of cave sanctuaries also stopped. The rise of philosophy and Christianity is then presented as a return to walking. The book closes by looking at the ambivalent relationship of contemporary modern walking, where its radical abandonment is combined with attempts at returns. The book ventures an unprecedented genealogy of walking culture, bringing together archaeological studies distant in time and place, and having a special focus on the significance of the rise of representative art in human history. Our genealogy helped to identify settlement not as the glorious origin of civilization but rather as a source of an extremely problematic development. The findings of the book should be relevant for social scientists, as well as those interested in walking and its cultural and civilizational significance, or in the direction and meaning of human history.

Unriddling the Exeter Riddles Patrick J. Murphy 2011-03-21 The vibrant and enigmatic Exeter Riddles (ca. 960–980) are among the most compelling texts in the field of medieval studies, in part because they lack textually supplied solutions. Indeed, these ninety-five Old English riddles have become so popular that they have even been featured on posters for the London Underground and have inspired a sculpture in downtown Exeter. Modern scholars have responded enthusiastically

the challenge of solving the Riddles, but have generally examined them individually. Few have considered the collection as a whole or in a broader context. In this book, Patrick Murphy takes an innovative approach, arguing that in order to understand the Riddles more fully, we must step from the individual puzzles and consider the group in light of the textual and oral traditions from which they emerged. He offers fresh insights into the nature of the Exeter Riddles' complex intellectual foundations, and their lively use of metaphor.

Living Systems | Margolis 2012-10-02 Die Revolutionierung der Landschaftsarchitektur durch intelligente Materialien und Technologien Living Systems stellt eine Vielzahl von neuartigen Materialtechnologien für die Landschaftsarchitektur dar. Die Projekte und Materialien sind in enger Zusammenarbeit von Entwerfern, Ingenieuren, Wissenschaftlern und Ökologen entstanden. In enger Verbindung aus praxisorientierter Darstellung und theoretischem Hintergrund rücken Technologien zu Themen wie Wachstum, Fließen, Metabolismus, Klima und Wetterphänomenen in den Mittelpunkt. Die Darstellung vernetzt die Materialien und Technologien entsprechend ihrer Funktionsweisen, Prozesse und Eigenschaften miteinander. Detaillierte Zeichnungen und konstruktionsrelevante Fotos illustrieren die 36 internationalen Projekte und 23 Materialbeispiele. In den komplexen Systemen gehören vertikale Wachstumsstrukturen, Prävention vor Überflutung Anlagen zur Regenwasserversickerung sowie zur Minimierung von Bodenerosion. Beispielprojekte stammen unter anderem von West8 (Niederlande), GROSS.MAX (Großbritannien), Weiss-Manfred Architects (USA), Kathryn Gustafson (USA) und Vogt Landschaftsarchitekten (Schweiz).

French Cruisers | John Jordan 2013-03-04 The French produced some of the most striking and innovative interwar cruiser designs. A large amount of new information about these ships has become available over the past twenty years in France, but this book is the first to make this to an English-speaking readership. Part I explains the design philosophy behind each of the classes built after 1922, and outlines the characteristics of each type, accompanied by detailed data and a comprehensive set of specially-drawn plans based on official documents, as well as carefully selected photographs. Coverage includes the De Grasse, laid down in August 1939 and completed postwar as an AA cruiser, and also the heavy cruisers of the Saint Louis class intended to follow about which little has been published. Part II deals with the historical side, covering not only the eventful careers of these ships, but also explaining the peacetime organisation of the Marine Nationale, the complex politics of this turbulent period and their impact on the navy. Like its highly successful predecessor, French Battleships, this beautifully presented book subtly blends technical and historical analysis to produce what must become the standard reference work.
