The Knights Templar in Popular Culture Patrick Masters 2022-02-15 From the Arthurian epic poem Parzival to Dan Brown's *The Da Vinci Code*, Indiana Jones and the Last Crusade, and the Assassin's Creed video game series, the Knights Templar have captivated artists and audiences alike for centuries. In modern times, the Templars have featured in many narrative contexts, evolving in a range of contrasting story roles: the grail guardian, the heroic knight, the villainous knight, and the keeper of conspiracies. This study explores why these gone but not forgotten warrior monks remain prominent in popular culture; how history influenced the myth; and how the myth has influenced literature, film and video games.

The World and a Very Small Place in Africa Donald R. Wright 2015-02-12 Niimi, a small, little-known territory located on the bank of the Gambia River in West Africa, is seemingly far from the reaches of world historical events. And yet the outside world has long had a significant - and increasingly profound - impact on Niimi. This fascinating work shows how global events have affected people's lives over the past eight centuries in this small region in Africa's smallest country. Drawing on written and oral testimony, and writing in a clear and personal style, Donald R. Wright connects 'globalization' with real people in a real place. This new edition updates discussions of global history and African history based on current studies and new developments that have been factored into the interpretive framework. Reflecting on recent visits to Niimi, Wright extends the story into 2009, to consider the impact of global recession and domestic political repression under a regime in power for the past fifteen years. Punctuating the narrative are photographs, maps, and 'Perspectives' boxes on selected topics such as the sale of slaves five centuries ago, colonial sexism, the fate of press freedom, and how popular culture affects growing up in a traditional society. Throughout, the author deals with African history seriously, global trends critically, and human lives sensitively.

A History of the Crusades: Volume 1, The First Crusade and the Foundation of the Kingdom of Jerusalem Steven Runciman 1951 Analyzes the Crusades from European and Arabic viewpoints

The Crusades James Harpur 2008-01-15 Presents the history of the Crusades, including the organizational problems, the multiple political alliances, biographies of notable figures on both sides of the conflict, and the reasons for the final defeat of the Europeans.

Syria: An Outline History John D. Grainger 2016-02-29 Syria (which in its historical wider sense includes modern Syria, Lebanon, Israel/Palestine and Jordan) has always been at the centre of events of world importance. It was in this region that pastoral-stock rearing, settled agriculture and alphabetic writing were invented (and the dog domesticated). From Syria, Phoenician explorers set out to explore the whole Mediterranean region and sailed round Africa 2,000 years before Vasco de Gama. These are achievements enough but the succeeding centuries offer a rich tapestry of turbulent change, a cycle of repeated conquest, unification, rebellion and division. John D Grainger gives a sweeping overview (though replete with telling details) of the making of this historical region. From the end of the ice age through the procession of Assyrian, Phoenician, Persian, Greek, Roman, Arab, Turkish, French and British attempts to dominate this area, the key events and influences are clearly explained and analysed. The events playing out on our TV screens over recent years are put in the context of 12,000 years of history.

The Churches of the Crusader Kingdom of Jerusalem: A Corpus: Volume 2, L-Z (excluding Tyre) Denys Pringle 1993 This is the second of a series of four volumes that are intended to present a complete corpus of all the church buildings, of both the western and the oriental rites, rebuilt or simply in use in the Crusader Kingdom of Jerusalem between the capture of Jerusalem for the First Crusade in 1099 and the loss of Acre in 1291. This volume completes the general topographical coverage begun in volume I, and will be followed by a third volume dealing specifically with the major cities of Jerusalem, Acre and Tyre (which are excluded from the preceding volumes). The project, of which this series represents the final, definitive publication, has been sponsored by the British School of Archaeology in Jerusalem. On completion the corpus will contain a topographical listing of all the 400 or more church buildings of the Kingdom that are attested by documentary or surviving archaeological evidence, and individual descriptions and discussion of them in terms of their identification, building history and architecture. Some of the buildings have been published before, but many others are published here for the first time.

The History of the Crusades (Vol.1-3) Joseph François Michaud 2020-04-06 The History of the Crusades in 3 volumes is a historical work by French historian Joseph François Michaud which provides a comprehensive look at the Crusades, including political and military battles in Europe, North Africa, and Asia Minor. The Crusades were a series of religious wars initiated, supported and sometimes directed by the Latin Church in the medieval period, especially the campaigns between 1096 and 1271 in the Eastern Mediterranean aimed at recovering the Holy Land from Islamic rule. Michaud expands the term of Crusades, including in his work the wars against Turks in Europe in 13th, 14th, and 15th century, concluding with his reflections on the state of Europe, on the various classes of society, during and after the crusades.

Europe in the Central Middle Ages Christopher Brooke 2016-04-15 This wide-ranging introduction to medieval Europe has been updated and revised. In his popular survey Brooke explores the variety of human experience in the period. He looks at society, economy, religious life and popular religion, learning, culture, as well as political events; the rise of the Normans and the heyday of the medieval Empire. For the new edition there is increased coverage of the role of women and more attention to central Europe, Bohemia, Hungary and Poland.

A History of the Crusades Kenneth Meyer Setton 1977-09 This work contains information and analysis of the history, politics, economics, and culture of the medieval world. The six volumes stand as a history of the Crusades, spanning five centuries, encompassing Jewish, Muslim, and Christian perspectives.

The Nitrian Principality: The Beginnings of Medieval Slovakia Ján Steinhübel 2020-12-15 In *The Nitrian Principality: The Beginnings of Medieval Slovakia* Ján Steinhübel offers an account of the early medieval West Slavic realm which laid the national, territorial and historical foundations of Slovakia.

The penny cyclopædia [ed. by G. Long]. Society for the diffusion of useful knowledge 1841

Settlement and Crusade in the Thirteenth Century Gil Fishhof 2021-07-19 *Settlement and Crusade in the Thirteenth Century* sheds new light on formerly less explored aspects of the crusading movement and the Latin East during the thirteenth century. In commemoration of the 800th anniversary of the construction of 'Atlit Castle, a significant section of this volume is dedicated to the castle, which was one of the most impressive built in the Latin East. Scholarly debate has centred on the reasons behind the construction of the castle, its role in the defence of the Kingdom of Jerusalem during the thirteenth century, and its significance for the Templar order. The studies in this volume shed new light on diverse aspects of the site, including its cemetery and the surveys conducted there. Further chapters examine Cyprus during the thirteenth century, which under the Lusignan dynasty was an important centre of Latin settlement in the East, and a major trade centre. These chapters present new contributions regarding the complex visual culture which developed on the island, the relation between different social groups, and settlement patterns. Adopting a multidisciplinary approach, this book will be of interest to scholars and students of the medieval period, as well as those interested in the Crusades, archaeology, material culture, and art history.

The History of the Crusades Joseph Fr. Michaud 1853

The Crusader Strategy Steve Tibble 2020-08-04 A new look at the crusaders, which shows how they pursued long-term plans and clear strategic goals Medieval states, and particularly crusader societies, often have been considered brutish and culturally isolated. It seems unlikely that they could develop "strategy" in any meaningful sense. However, the crusaders were actually highly organized in their thinking and their decision making was rarely random. In this lively account, Steve Tibble draws on a rich array of primary sources to reassess events on the ground and patterns of behavior over time. He shows how, from aggressive castle building to implementing a series of invasions of Egypt, crusader leaders tenaciously pursued long-term plans and devoted single-minded attention to clear strategic goals. Crusader states were permanently on the brink of destruction; resources were scarce and the penalties for failure severe. Intuitive strategic thinking, Tibble argues, was a necessity, not a luxury.

The Churches of the Crusader Kingdom of Jerusalem: A Corpus: Volume 1, A-K (excluding Acre and Jerusalem) Denys Pringle 1993 This is the first of a series of three volumes intended to present a complete gazetteer of all the 400 or more church buildings known to have existed in the Crusader Kingdom of Jerusalem between the capture of the city in 1099 and the fall of Acre in 1291. Volume I forms the first part of the general topographical coverage, and includes individual descriptions and historical discussion of the sites A-K. The sequence will be continued in Volume II, while Volume III will deal specifically with Jerusalem, Acre and Tyre. Together, the volumes provide an indispensable reference work to the Holy Land.

Crusader Castles and Modern Histories Ronnie Ellenblum 2007-01-04 For the last 150 years the historiography of the Crusades has been dominated by nationalist and colonialist discourses in Europe and the Levant. These modern histories have interpreted the Crusades in terms of dichotomous camps, Frankish and Muslim. In this revisionist study, Ronnie Ellenblum presents an interpretation of Crusader historiography that instead defines military and architectural relations between the Franks, local Christians, Muslims and Turks in terms of continuous dialogue and mutual influence. Through close analysis of siege tactics, defensive strategies and the structure and distribution of Crusader castles, Ellenblum relates patterns of crusader settlement to their environment and demonstrates the influence of opposing cultures on tactics and fortifications. He argues that fortifications were often built according to economic and geographic considerations rather than for strategic reasons or to protect illusory 'frontiers', and that Crusader castles are the most evident expression of a cultural dialogue between east and west.

The Road to Armageddon W. B. Bartlett 2007 The Third Crusade of Richard the Lionheart is well known but the build-up to it less so. Yet the years that led up to the Battle of Hattin in 1187 resonant with intrigue, plot and counter-plot, and the abuse of power. The infighting among the Christian forces, coupled with the rise of a Muslim leader of genius, Salah ed-Din Yusuf, Saladin, led almost inevitably to the fateful field of Hattin.

Western Warfare In The Age Of The Crusades, 1000-1300 John France 2020-09-17 In 1095 the First Crusade was launched, establishing a great military endeavour which was a central preoccupation of Europeans until the end of the thirteenth century. In Western warfare in the age of the Crusades, 1000-1300 John France offers a wide-ranging and challenging survey of war and warfare and its place in the development of European Society, culture and economy in the period of the Crusades. Placing the crusades in a wider context, this book brings together the wealth of recent scholarly research on such issues as knighthood, siege warfare, chivalry and fortifications into an accessible form. Western warfare in the age of the Crusades, 1000-1300 examines the nature of war in the period 1000-1300 and argues that it was primarily shaped by the people who conducted war - the landowners. John France illuminates the role of property concerns in producing the characteristic instruments of war: the castle and the knight. This authoritative study details the way in which war was fought and the reasons for it as well as reflecting on the society which produced the crusades.

Knights of the Cross Rita Stark 2008-06 It's the eleventh century and Islam, born from the sands of the Arabian Desert, has spread from Syria to Spain. Muslims now rule a large part of what was once the Roman Empire. Eude de Châtillon, a monk at the monastery of Cluny, France, does not like what he sees. He leads expeditions to free Spain from its Muslim rulers. When he becomes Pope Urban II, he urges good Christians everywhere to free Jerusalem, and so the crusades begin. As pope, however, he is not able to lead the fight, so he gives authority to

Peter the Hermit, a popular priest. At Peter's bidding, thousands of peasants join the crusade, which was named "The Popular Crusade." Fierce battles are fought throughout Spain, the Holy Land, and elsewhere as Christians and Muslims compete for power. The repercussions of this historic struggle are still evident today in the continued fighting in the Middle East; Muslim attitudes about the Western world and memories of the September 11 attacks. *Knights of the Cross* is the complete report of all the Crusades and a must-read for anyone struggling to understand how religious conflicts of the past have shaped the world today.

The crusades T.A. Archer 1900

The Routledge Companion to the Crusades Peter Lock 2013-04-15 A compilation of facts, figures, maps, family trees, summaries of the major crusades and their historiography, the *Routledge Companion to the Crusades* spans a broad chronological range from the eleventh to the eighteenth century, and gives a chronological framework and context for modern research on the crusading movement. Not just a history of the Crusades, but an overview of the logistical, economic, social and biographical history, this is a core text for students of history and religious studies.

The English Cyclopædia Charles Knight 1857

The Penny Cyclopaedia of the Society for the Diffusion of Useful Knowledge 1841

The Crusades, C.1071–c.1291 Jean Richard 1999-09-16 A concise, general history of the crusades from the beginnings to the fall of the last strongholds in 1291.

Jerusalem in the Time of the Crusades Adrian J. Boas 2001-09-06 Adrian Boas's combined use of historical and archaeological evidence together with first-hand accounts written by visiting pilgrims results in a multi-faceted perspective on Crusader Jerusalem. Generously illustrated, this book will serve both as a scholarly account of this city's archaeology and history, and a useful guide for the interested reader to a city at the centre of international and religious interest and conflict today.

The Holy Land Jerome Murphy-O'Connor 2008-02-28 Of immense significance to Judaism, Christianity, and Islam, the Holy Land has been attracting visitors since the fifth century BC. Covering all the main sites both in the city of Jerusalem and throughout the Holy Land and including over 150 high quality site plans, maps, diagrams, and photographs, this book provides the ultimate visitor guide to the rich archaeological heritage of the region. Fully updated with all the latest information, this new edition includes updates on the crucial recent developments at the Holy Sepulchre and on six completely new sites, including a Middle Bronze Age water system in Jerusalem and what may be the original Pool of Siloam.

Crusader Art in the Holy Land, From the Third Crusade to the Fall of Acre Jaroslav Folda 2005-09-05 Publisher Description

Crusaders Dan Jones 2019-10-01 A major new history of the Crusades with an unprecedented wide scope, told in a tableau of portraits of people on all sides of the wars, from the author of *Powers and Thrones*. For more than one thousand years, Christians and Muslims lived side by side, sometimes at peace and sometimes at war. When Christian armies seized Jerusalem in 1099, they began the most notorious period of conflict between the two religions. Depending on who you ask, the fall of the holy city was either an inspiring legend or the greatest of horrors. In *Crusaders*, Dan Jones interrogates the many sides of the larger story, charting a deeply human and avowedly pluralist path through the crusading era. Expanding the usual timeframe, Jones looks to the roots of Christian-Muslim relations in the eighth century and tracks the influence of crusading to present day. He widens the geographical focus to far-flung regions home to so-called enemies of the Church, including Spain, North Africa, southern France, and the Baltic states. By telling intimate stories of individual journeys, Jones illuminates these centuries of war not only from the perspective of popes and kings, but from Arab-Sicilian poets, Byzantine princesses, Sunni scholars, Shi'ite viziers, Mamluk slave soldiers, Mongol chieftains, and barefoot friars. Crusading remains a rallying call to this day, but its role in the popular imagination ignores the cooperation and complicated coexistence that were just as much a feature of the period as warfare. The age-old relationships between faith, conquest, wealth, power, and trade meant that crusading was not only about fighting for the glory of God, but also, among other earthly reasons, about gold. In this richly dramatic narrative that gives voice to sources usually pushed to the margins, Dan Jones has written an authoritative survey of the holy wars with global scope and human focus.

Crusader Castles Hugh Kennedy 2001-01-15 This is a general account of the history and architecture of Crusader castles in the Kingdom of Jerusalem, County of Tripoli and Principality of Antioch between 1099 and 1291, the years during which the Crusaders had a

permanent presence on the Levantine coast. Extensive use is made of contemporary chronicles to show the reasons why castles were built and how they were used in peace and war. The book is fully illustrated by photographs, drawings and plans, and contains a comprehensive bibliography.

Enquiring History: The Crusades: Conflict and Controversy, 1095-1291 Jamie Byrom 2013-04-26 Think more deeply and work more independently at A level History through a carefully thought-out enquiry approach from SHP. Enquiring History: It makes you think! The OFSTED report on school history suggests that the current generation of A Level students have been poorly served by exam-based textbooks which spoon-feed students while failing to enthuse them or develop deeper understandings of studying History The Schools History Project has risen to this challenge with a new series for the next generation. Enquiring History is SHP's fresh approach to Advanced Level History that aims: - To motivate and engage readers - To help readers think and gain independence as learners - To encourage enquiry, and deeper understanding of periods and the people of the past - To engage with current scholarship - To prepare A Level students for university Key features of each Student book - Clear compelling narrative - books are designed to be read cover to cover - Structured enquiries - that explore the core content and issues of each period - 'Insight' panels between enquiries provide context, overview, and extension - Full colour illustrations throughout The Crusades: Conflict and controversy 1095-1291 There has never been a more important time to study the Crusades. Religious conflict is a fact of life in the twenty-first century no less than it was in the medieval world. And yet the world of the Crusades is so different from ours that it takes a massive leap of imagination to make sense of these events. This book takes on that challenge: opening a window onto the 12th and 13th century worlds to understand what on earth was going on. It examines the Crusades themselves; the controversies surrounding them; and the past and current re-interpretations of the period. Web-based support includes - lesson planning tools and guidance for teachers available from the SHP website <http://www.schoolshistoryproject.org.uk/Publishing/BooksSHP/BooksALvlEHS.html> - eBooks for whole class teaching or individual student reading available from eBook retailers

A Brief History of the Crusades Geoffrey Hindley 2013-02-07 Why did the medieval Church bless William of Normandy's invasion of Christian England in 1066 and authorise cultural genocide in Provence? How could a Christian army sack Christian Constantinople in 1204? Why did thousands of ordinary men and women, led by knights and ladies, kings and queens, embark on campaigns of fanatical conquest in the world of Islam? The word 'Crusade' came later, but the concept of a 'war for the faith' is an ancient one. Geoffrey Hindley instructively unravels the story of the Christian military expeditions that have perturbed European history, troubled Christian consciences and embittered Muslim attitudes towards the West. He offers a lively record of the Crusades, from the Middle East to the pagan Baltic, and fascinating portraits of the major personalities, from Godfrey of Bouillon, the first Latin ruler of Jerusalem, to Etienne, the visionary French peasant boy who inspired the tragic Children's Crusade. Addressing questions rarely considered, Hindley sheds new light on pressing issues surrounding religious division and shows how the Crusades have helped to shape the modern world and relations between Christian and Muslim countries to this day.

The Churches of the Crusader Kingdom of Jerusalem: Volume 3, The City of Jerusalem Denys Pringle 1993 This is the third in a series of four volumes intended to present a complete Corpus of all the church buildings that were built, rebuilt or simply in use in the Crusader Kingdom of Jerusalem. This volume deals exclusively with Jerusalem, the capital of the Kingdom from 1099 to 1187.
